Subject: Preliminary Review of EPA Comments addressed by DNREC  
concerning Pump Test of OR-6A.

As per our conversation on July 2, 1990 pertaining to the comments presented by EPA to DNREC on Standard Chlorine pump test, EPA feels that their concerns have not been adequately addressed. Based on this information, EPA will not concur with the procedure Standard Chlorine has proposed in their pump test specifications. EPA will be submitting specific comments on the June 21st correspondence in the near future. If you should have any questions, please contact me at (215) 597-3164.

Sincerely,

A handwritten signature in cursive script, appearing to read "Robert Guarni", is written over the typed name.
